# WE Study...

Over 90% of our students from WE Bridge Academy progress to university.

As a centre of academic excellence we offer our students the opportunity to undertake study in higher education in the UK, Australia, USA, Ireland and Canada via our popular foundation programme, which comes with four separate pathways: Computing, Engineering, Business and Science, as well as offering preparation for IELTS, General English classes and English classes for specific purposes.

# // Courses and Programmes

## // International Foundation Programme

The International Foundation Programme (IFP) has been specifically developed for international students who want to study for an undergraduate degree and comes with four separate pathways: Computing, Engineering, Business and Science. The course has proved to be very successful with 90% of our IFP students securing a place at university.

## // General English

Our General English courses provide a professional and relaxed learning environment where students are helped to develop the four essential skills of language communication: speaking, listening, reading and writing.

## // General English and IELTS preparation

As well as improving their general language capability, students learn and practise key skills and exam techniques required for the IELTS exam.

## // English for Specific Purposes

Each English for Specific Purposes (ESP) course focuses on career-specific vocabulary and contexts, and is combined with a General English programme in order to develop your overall English language skills in speaking, listening, reading and writing.

**Please visit our website for pricing.**

# // Placement Test

Every student will take a placement test on their first day at WE Bridge Academy which allows us to determine their level of English, and place them in the most suitable class. The test takes around 90 minutes and forms part of the induction process.

Some of the courses and programmes we offer may require a pre-arrival interview. This is an opportunity for us to get to know the student and answer any questions they might have.

Applications for our courses can be made today online at [www.we-bridge.co.uk](http://www.we-bridge.co.uk). All the information required to calculate the total cost of accommodation, course fees, living expenses and airport transfers can be found on our website.

# WE Live...

*“It is very important for me to improve my English as I want to work in retail and foreign trade. I would recommend WE Bridge Academy as a very good place to study. There are so many different people of different nationalities studying here, we speak English all the time!”*

*Leandra (Germany)*

It is important for students to choose somewhere to stay before arriving in the UK and our Housing Officer can advise on finding the best kind of accommodation to suit each student's requirements.

# // Accommodation

Most students choose from homestay, residential, private accommodation or a hotel/bed and breakfast. WE Bridge Academy homestay accommodation availability is limited and must be booked at least two weeks before arrival (subject to availability).

We understand how important it is to secure the right accommodation and we ensure that our extensive network of homestay providers offers accommodation that is pleasant, comfortable and safe.

Our English-speaking hosts provide an opportunity to practise English language skills.

A single room on a half-board basis with breakfast and evening meal.

A single room on a full-board basis for students aged under 18.

Each home is inspected to meet British Council quality standards.

A maximum of one student per nationality will be placed in each home.

A payment for the first 4 weeks accommodation is required to secure homestay.

Our Housing Officer will provide students with all the information needed prior to their arrival in the UK and if they have any questions regarding homestay accommodation during their stay we are always happy to help.

In order to secure homestay accommodation we have devised the following checklist:

1. The form must be completed at least two weeks before students arrive in the UK.
2. Homestay accommodation cannot be booked without a completed form.
3. Homestay fees are payable in addition to course fees.
4. Students aged under 18 must stay with a WE Bridge Academy homestay provider, or with a family member with the written permission of their parent/guardian.
