# Your course

Courses available are General English (21hrs) and General English with IELTS Preparation (21hrs).

## Timetables

Classlists and timetables will be displayed on the digital screen in Lady Wootton's Green inside the entrance hall.

### 09:00 -11:00 Core Language lessons

These lessons are coursebook-led classes that communicatively teach grammar points and practise them for accuracy. Your teacher for this class will also be your personal tutor and will be available for you to contact if you want to discuss your learning outside of class. You will be set 1 hour of homework every day in this lesson. Once a week this class will be held in an IT room to access your CLICLearn account, and to have a computer-based lesson.

### 11:30-12:30 Topic-based Language lessons

These lessons will develop your confidence by using your expanding English knowledge to produce work in all the skills and will include the use of technology and university provided facilities. The classes will cover many different topics: sometimes you may have a DVD, or work with newspapers. You might also work on a project, which means finding information yourself. You will also usually be asked to give a presentation, which is a short talk to the class on a topic.

### 13:30-15:00 Language Skills lessons (academic year)

### 14:00-15:30 Language Skills lessons (Summer School)

These lessons will be focused on the individual language skills: reading, writing, listening and speaking. You will be mixing with students from other classes of a similar level, and may have a choice of topics if you are on the General English course. These lessons are collaboratively planned, which means the teacher and the students in the class decide the lesson focus together. For example;

- In writing lessons you may ask for lessons in email and text language or formal letters
- In speaking lessons you may ask for drama and role-playing or games
- In listening lessons you may ask for film lessons or music and songs
- In reading you may ask for newspaper or literature studies
- In any of the skills you may ask for a focus on Business English, everyday situational communication, vocabulary development, current affairs or anything else that you and your teacher decide on.

If you are on the General English with IELTS preparation course the lessons will focus on the four separate exam sections providing both preparation in exam skills and exam practice. The lessons will mainly be exam language and strategy, as exam practice can be done during self-study on Fridays, or for homework.
